Yarwood was employed about two weeks in exercising horses but was discharged a few days ago, because there was no more work for him.

work for him.

This morning he came to the Academy stables. He had been drinking, was offensive and was several times ordered away.

Shortly after noon Lehman left the stables to go to his lunch. Yarwood went away with him.

The two men crossed the street, and had gone about fifty feet when Yarwood attacked his companion, knocking him down and kicking him after he fell.

Witnesses rushed to the scene and Yarwood left precipitalely. He is said to have taken a surface car bound downtown, and the police have not yet been able to find him.

Lehman was left lying on the walk.

Those who reached him found him scarcely alive, bleeding from his mouth, nose and from wounds in his head.

He died a moment after his removal to a room opening from the Academy stables.

His death was probably due to concussion of the brain.

Yarwood was a heavily built fellow and an ex-pugilist. He has been living at 722 Ninth avenue, but was moving from that place to-day and the police are now watching the

house.

Lehman was engaged to be married to a pretty young girl, and the ceremony was to be performed next Sunday.

There was no known trouble between the

two men.
It is believed that Yarwood, drunk and ugly over his discharge, came to the stables to vent his spite on comebody and that Lehman became his unfortunate victim.

The dead man was a bright and trusted employee of the Academy, and popular among those of its patrons who had chanced to have dealings with him.

An EVENING WORLD reporter called on Mr. Cowley this morning. He is a portrait painter. His studio is on the third floor of the building, No. 34 West Fourteenth street. It is a large pleasant room in the rear, tastefully furnished.

Portraits of Grant, Langtry, Russell, Vanderbilt, and other well-known people, in erayon and oils hang about the walls. A spirited picture in a heavy gilt frame of beautiful young mother suckling her babe

is the best piece of work to be seen there. When the reporter entered Mr. Cowley was striding nervously up and down the

room.

He is above the medium height, erect and graceful in carriage. His features are regular and might be called handsome but for the

He has a long blonde mustache, which partially conceals a rather weak mouth. He was dressed in a dark suit and wore a silk hat a little the worse for wear.

"What do you wish?" he asked pointedly, when the reporter entered.

"I am a reporter from The Evening World, and called to see you in reference to those missing diamonds, for the return of which you offer so large a reward," explained the visitor.

Instantly Mr. Cowley became perturbed.

'I had hoped the matter would gain no publicity," he said.

Then he went to a small safe located between the two windows, looking out in the rear, and continued rapidly;

"The diamonds were worth \$28,000. I had them in here—pointing out a small compartment at the top of the safe—with this gold ring and watch chain. I went out to dinner on Saturday evening and returned about 7.30 r. M.

"I neglected to lock the safe going out, but I shut it up tight. When I got back the first thing I noticed was the door standing half-way open. I knew I did not leave it that way. At once I thought of the diamonds, I sprang to the safe. One glance was enough.

"Who owned the diamonds?"

"The wife of a wealthy Philadelphia shoe manufacturer," he answered.

"What is her name?"

"That I cannot divide now. She is a so.

It was nearly completed last week when she brought the gems in. I finished the picture. I had had the diamonds four days then.

"I sent the picture home Saiurday. I intended to send the diamonds home yesterday. I wish to God now I had sent them along with the painting. I don't know why I did not. They are gone now and I don't know what to do."

"How many diamonds were there altogether?"

"Twenty-four. Thirteen were set in a

golden necklace and eleven in a gold horse-shoe breastpin. They were worth over a thousand dollars spiece," he explained. Will you have to make good the loss?"

"I cannot."

"I eannot."

Of course she was suspicious and talked harshly, but after a long talk together she decided to offer \$6,00) reward for the return of the stones. We decided on that sum, as I do not think the thief or thieves would get any more in any of the places that they could dispose of them."

"Have you any clue at all to the thief?"

"Not one. Everybody in the building is honest, as far as I know. My door lock could be very ensily opened, and ingress to my rooms could be readily attained through the rear windows."

The matter was referred to the Comptroller for a solution of the difficulty.

Commissioner of Public Works D. Lowber Smith asked for an increase of \$14,000 to the fund for supplies and cleaning of public offices.

No. I frequently have jewelry left me to paint in portratts, but I have never had such valuable articles left with me before."

Whoever took the diamonds left a valuable gold watch chain and ring behind him. They are just as readily disposed of as diamonds, and a professional thief would hardly overlook them. There were also other articles of value left behind in the safe.

The Whole Case Against Him Based on Atrocious Fraud.

England's "Thunderer" Driven Into a Mighty Small Hole.

GREAT EXCITEMENT IN LONDON.

[SPECIAL CABLE TO THE EVENING WORLD,] London, Feb. 26.-Richard Pigott, the principal Times witness in the Parnell case has made a startling confession.

He declares the Parnell letters, published by the London Times, absolute forgeries. The aunouncement of this sensational de velopment was made at the morning session

of the Parnell Commission to-day. Sir Charles Russell, counsel for Parnell, arose shortly after the opening of the cour and stated that on Saturday last at the house of Hehry Labouchere, editor of Truth,

Pigott signed a confessiou. This confession stated in so many words that the alleged Parnell letters printed by the Times, and on which the Times based its charges against the Irish members, were forgeries.

Mr. George Augustus Sala was also presen when the confession was made. Pigott had, without invitation, called or

Mr. Labouchere and offered to confess. Mr. Labouchere declined to listen without witnesses, whereupon Mr. Sala was summoned.

Pigott confessed that he was the forger. The statement of Sir Charles Russell was prroborated by the witnesses. Having made this extraordinary statement

to the Court, Sir Charles Russell applied for a warrant for the arrest of Pigott. The Presiding Justice said that hour a warrant would be ready.

No other witness was ready to go on the stand and the counsel for the prosecution asked time to consider what to do. He did not know whether or not he would resume any part of the cass.

LONDON, Feb. 26-Later .- Continuing, Sir Charles said that between Pigott and Houston it had been charged there existed a four conspiracy. Added to this was the fact of

Pigott's escape.
Solicitor Soames, of counsel for the Times, arose and emphatically denied that he had m

any way aided in Pigott's escape. Solicitor Shannon was then called as a witness He testified that on Sunday night Pigott gave him a written communication denying the statement that he forged at the

letters.

Pigott, he said, avowed his belief in the genuineness of the first baten of letters.

The third batch, consisting of letters from Messrs. Davitt and O'Kelly, were in addition to the second batch forged by himself and

to the second batch forged by himself and Casey.

In conclusion Pigott added that his statement was absolutely true, and now that his confession was made to the world he hoped the Times would deal leniently with him.

Mr. Houston was called. He testified that Pigott left without his luggage. He produced a letter in which Pigott asked for a baiance of £33 he said was due him, and which he wished to send to his poor children.

Mr. Soames admitted on the stand that he had agreed to protect Pigott if he would verify on the stand the statements he had made to him.

He had consented to pay his expenses in leaving the country.

Before adjournment Sir Charles Rusself announced that he would insist on going on with the investigation regardless of what action the Times might take.

It was very syident to all present that the Times had niet its Waterloo, and that the case was in a state of complete collapse.

RAUBISCHECK

He Is Wandering About Demented and Seeking Work.

Out the Fact.

A General Alarm Sent Out from Police Headquarters To-Day.

Frank Raubischeck, the artist, who has been missing from his home since Feb. 13, is alive and in this city or vicinity.

He is demented, and is wandering about applying at different residences for work. The discovery of these facts was brought about by the publication of the missing man's picture, in connection with his story, in yesterday's Evening World. When Mr. and Mrs. Frank E. Smith. of

treet, saw the printed picture they recognized it as that of a man who had called at their house twice on Washington's Birthday. Mr. Smith promptly telegraphed to Mrs. Mr. Smith promptly telegraphed to Mrs. Raubischeck, who went to the house in Harlem with a photograph of her husband. Again the Smiths recognized their caller, and a further identification was established by a description of the man's quick, nervous walk, his peculiar swing of the left arm while walking, and his German accent in speaking. When the wanderer first called at the Smith residence Mrs. Smith was alone. The man said he was an artist, in bard luck, and naked if there was no work for him. Impressed by his appearance, Mrs. Smith aslied him to call again when her husband was at home.

was at home. He came back at about 6 o'clock, was given his supper and was told that if he would come again next day he should have the decoration of two houses which Mr. Smith, who is a builder by occupation, was engaged

Mrs. Raubischeck was greatly excited when she became convinced that the wandering artist was her missing husband.

She hurried down to the Police Headquarters, and after she had told her story a general slarm was at once sent out, telling briefly the man's apparent mental condition and the fact of his wandering and looking for work.

"The Chicago Baseball Club would rather see Ward go with the Washingtons than with either New York or Boston," were the words of Walter Spalding this morning to an Evening Would reporter.

Mr. Spalding is the official representative of the Chicago Club during the absence of his brother with the touring players. He continued: "It would be an exceedingly good thing for Washington to secure Ward. He would be a great card. He would draw the crowds.

best ball-players in the world. He is not only a brilliant player, but a steady one as well. He is not a record player. He takes all the chances that come anywhere near him.

"Then he is great on head-work. He uses his brains. Ward would make a splendid captain for the Washingtons.

"Personally, as a New Yorker, I should like to see Ward continue as a conspicuous member of the Giant team, but it would undonbtedly be better for every club in the League if Washington should get him.

"The Senators have always been considered a weak club, and they do not draw the crowds some of the other pines do.

"I don't think Ward would gain anything by going with the Bostons. Among the latter already are a number of stars of the first water.

"My own opinion is that he will go to Washington. I think it must have been pretty well understood that he was willing to make the change, or the plan would not have been acted upon so far."

PRESIDENT BRUSH SAYS WASHINGTON. ISPECIAL TO THE EVENING WORLD, I INDIANAPOLIS, Feb. 26.—President Brush

He says it is not good policy for all the good players to be confined to two or three clubs. He would have them more evenly distributed.
